

## Hardcap™ A1+ 5cm Short Peak

ABP000-002-100

HardCap A1+

Flame Retardant Navy | ABP000-002-100

### DESCRIPTION

The HardCap A1+™ is another major innovation from JSP in head protection. Designed to exceed the most recent standards, design iterations have been undertaken to develop a product that is unrivalled in both performance and style. Sleek and low profile, it's almost impossible to distinguish from a standard 'high street' baseball cap.

The unique angled adjuster designed to fit under the occipital bone at the rear of the skull means that one size really does fit all, particularly when combined with the castellated protective liner. The liner is removable, therefore the cap part is machine-washable for hygiene purposes. It has a terrytowel sweatband for added comfort and subtle reflective piping for added visibility safety.

### SAFETY STANDARDS

EN 812

### FEATURES

- Protects against impacts from the sides as well as from above. It is also removable so the outer cap is fully washable for hygiene and extended life cycle.
- Unique one-handed angled adjuster to quickly fit tightly and comfortably to most head sizes and shapes. Fits head sizes from 53 to 64cm.
- Extra holes in the liner and two mesh panels on the outer give added ventilation for coolness and comfort.
- Subtle reflective piping for added visibility safety.

## SPECIFICATIONS

Peak  
5cm

Impact Resistance  
12 Joules x 4

Side Impact Resistance  
12 Joules

Maximum Temperature  
+50°C

Minimum Temperature  
-10°C

HDPE Shell  
Yes

Recyclable  
Shell

Slip Ratchet  
Slip

Ventilation  
Yes

Reflective Option  
Standard

Flame Retardant  
Optional

BSI Kitemark  
Yes

Machine Washable At  
Max 40°C

Product Weight  
155g

Size  
53-64cm
