

Sonis[®]3 Helmet Mounted Ear Defenders

Dark Grey / Red / AEB040-0C1-AAN

SONIS[®]3

DESCRIPTION

The Sonis[®] range has been stylishly designed with a traffic light colour code for easy identification.

Materials have been chosen for both performance and comfort over extended periods of use, with careful design ensuring a small number of key components for easy maintenance.

Sonis[®]3 helmet mounted ear defenders offer high attenuation

SAFETY STANDARDS

AS/NZS1270

FEATURES

- The Sonis[®] range of ear defenders have been designed by the JSP R&D team. Working with a leading UK acoustic engineering research facility, they have developed an ear defender range that peaks at an unbeaten 37 SNR.
- Sonis[®] cups can be coloured to meet a corporate identity. They can also be printed with a company logo for improved brand recognition and to discourage theft. MOQ's apply. Logo printing is available on sides of the Earmuffs.
- The headband is manufactured from TPE, making it easy to wipe clean. The sealing rings are easy to replace. Hygiene kits are available for each model.
- The over-moulded headband has a built-in comfort area with ventilation. The headband force and the cushion surface area work together to provide optimum cushion pressure and comfort.
- To facilitate even distribution of pressure the wearer can tilt and adjust the position of the earcup for optimum comfort and fit.
- The universal slots of JSP helmets allow for easy fitting of Sonis[®] ear defenders, along with EVOGuard[®] and Surefit[™] visor systems for maximum protection.
