

DESCRIPTION

Hard Hat Full Brim Vented with Ratchet Harness - V6

FEATURES & BENEFITS

HELMET

- Lightweight
- Full brim hard hat features extended brim over the neck & ears, helping to reduce the amount of harmful UV radiation from the sun.
- The brim is slightly shorter in the front, allowing good upward vision.
- Individually packaged.
- 6 point ratchet harness.
- Air vents & cotton sweatband prevents perspiration build up all around peak for added protection.

HARNESS

- Providing the most secure fit in head protection, the ratchet harness allows you to quickly & easily adjust your hard hat with minute precision & without having to remove it from your head.
- Quick & easy single hand adjustment whilst wearing the helmet.
- Ideal for high wind areas when a secure fit is needed quickly
- Padded swivel feature for advanced positioning on back of the head.
- Small & unobtrusive design won't get in the way.
- Retro-reflective adjustment dial.
- Webbed harness cradling system to ensure correct hat position & promote ventilation.
